

# AS 2-250EM

## 25 L M-CLASS DUST EXTRACTOR

- M class certified vacuum with durable PET HEPA filter for high filtration efficiency
- 25 litre container with a double dust seal for protection against leakage
- Bluetooth® remote control for use with cordless tools and a power outlet with auto start and stop for use with corded tools
- Fully anti-static system with grounded inlet and anti-static hose. Prevents static shock to the user after dust build up
- Semi-axle back wheels offer durable and better rolling characteristics with non-marking rubber surface
- Low noise at only 69 dba
- Push clean filter cleaning system allows the user to clean the filter while in use and without opening the drum
- Safety inlet cap ensures no dust leakages during handling and transport
- On board storage of cleaning attachments

Power input (W)	1200
Filter type	PTFE
Max. vacuum (mbar)	245
Hose diameter (mm)	32
Hose length (m)	4
Weight (kg)	8.0
