

## Double Holster STK & URA

Double holster STK & URA includes the chisel knife STK and the utility knife URA, ensuring you are well equipped for all tasks. A double holster always allows you to have access to the two knives you use the most, so your job gets done efficiently. The chisel knife is a robust knife with V-shaped ground chisel function. The ergonomically designed utility knife offers great grip when cutting plasterboards, carpets and wallpaper. The double holster is made from impact-resistant PP plastic, joined by rivets and an elastic loop. Our double holsters are available in many different combinations. Once the knives are worn out, keep the holster and re-use it with new knives. A great and easy way to minimize our carbon footprint.
