

**PROF+**

Step Stool 5000+

A stable and safe step stool ladder with extra deep treads. Opens to the same angle as a normal stairway, making it easy to climb up and down. Economical on space and easy to transport when folded. The straight back allows you to get closer access.

- Strong aluminium profile provides stability without making the step stool ladder heavy.
- The standing area measures 250x425 mm and has bi-directional anti-slip protection to give a safe working position.
- An additional locking hook locks the step stool when open making it extra safe.
- The treads are 250 mm deep with bi-directional anti-slip protection.
- The edge at the very front of the standing area has a lip to it to stop you going down the wrong way.

Step Stool 5000+
