

Cross Line Green Laser with Guide Marks RBCLLG2

- The bright green cross line with guide marks enables the user to create patterns at similar distances without the need of measuring every space
- Green laser technology improves visibility of the laser lines by up to 4 times
- 1/4" Thread compatible with RYOBI Telescopic Pole RBCLTP1 or with with any tripod with 1/4" Thread
- When the laser is out of level, the laser line will blink every five seconds and the intuitive LED will light red to warn you. To fix the laser, just tilt it until you see the LED light-up green, this indicates the laser is back into level position.
- ON and OFF switch for secure transportation

Battery type	2 x AA
Colour of laser line	Green
Range (m)	15
Weight (kg)	0,4
Article Number	5133005497
EAN Code	4892210203779
Laser projection	Cross Line
Laser wavelength [nm]	510-520
No. of batteries supplied	2
Self levelling range (°)	3
Self levelling time [s]	Max 5 Secs.
Supplied in	Over 75% recycled cardboard carton

*Registration required for extension from 2-3 years. Please visit our site for full [T&C's](#)
