

# Moisture Meter RBPINMM1

- The Moisture Meter is ideal to use around the home, caravans, to review if wood logs for firewood are ready and for your DIY woodworking projects. Get a real moisture content reading instantly on the screen.
- Get real %MC with a measurement range from 0% to 99.9%.
- Select from four different material modes: Soft wood, hard wood, plaster and concrete aerated.
- Refer to the intuitive LED's which will light according to the %MC levels correlation on each material: Green for dry, yellow for mid-wet and red for wet.
- Use the hold button to take readings in difficult places to reach.
- Measurement range accuracy of 2% up to high %MC levels (LED lighting red).

Article Number	5133005032
Battery pack capacity (Ah)	1.5V
Battery type	2 x AAA
EAN Code	4892210188441
No. of batteries supplied	2
Standard equipment	Batteries and pouch included
Storage Temperature Range [°C]	-10°C -60°C
Supplied in	Gift box
Weight (kg)	0.1
