

## SDCWA 125 | Speedcross diamond cup wheels

- High quality diamonds and special bonding for low wear and fastest material removal.
- Optimised segment geometry with large dust discharge holes for best performance.
- For levelling of concrete, granite and natural stone surfaces.
- For quick grinding down of thick concrete layers as well as thermoplastics, paints and coatings.
- For edge grinding applications e.g. grinding off high edges of concrete, granite, natural stone tiles.
